Salisbury, Vt.

### DOCTOR LAMBERT DEAN.

Contract for New Chemistry  
Building Awarded T. W.  
Rogers.

It was announced at the college Wed-  
nesday morning, that Dr. Avery E.  
Lambert had been elected by the Cor-  
poration Dean of the College to succeed  
the late Walter E. Howard. The an-  
nouncement was received with applause  
by the students and has met with  
general approval.

Dr. Lambert came to Middlebury last  
September as assistant Professor of  
Zoology. For five years previous he  
was professor of the natural sciences in  
the State Normal School at Framing-  
ham, Mass.

Dr. Lambert is a Maine man by birth,  
and after graduating from high school  
he proceeded immediately to Bangor  
Theological seminary, where he fitted  
himself for the Congregational ministry.  
He was ordained and was a successful  
pastor. Finding himself at Thetford,  
twelve miles from Dartmouth college,  
he decided to take up his studies in that  
institution. He became much interested  
in Biology and received the degree of  
Ph. D. for advanced work in that sub-  
ject. He still retains his interest in  
church work and has preached nearly  
every Sunday since he came to Middle-  
bury, having supplied the pulpit in  
Pittsford quite regularly since the re-  
signation of Dr. C. H. Smith.

Dr. Lambert is a man of vigor, in the  
prime of life, interested in outdoor life  
of all sorts, and a sympathetic friend  
of young men. It is expected that he will  
put much energy into his new work and  
assist in many ways in the internal  
administration of the college.

### NEW CHEMISTRY BUILDING.

The contract has been signed for a  
new hall of chemistry for Middlebury  
college. Thomas W. Rogers of Bran-  
don will be the builder. The new build-  
ing will be located west of the old col-  
lege row, in the north-east corner of the  
present athletic field, parallel with  
College street. It will be of light  
marble, rock faced and random laid,  
three stories in height, with a large  
and well ventilated basement. The in-  
terior walls will be of brick and the  
finish of the building will be plain. No  
money will be wasted on ornament; it  
will be a workshop, not an art gallery.

The original directions for the build-  
ing were prepared by Professor Mc-  
Gilton before his illness and his plans  
have been closely followed. There will  
be a large general laboratory 41x39  
feet on the first floor, and on the same  
floor a general lecture room, with ele-  
vated seats to accommodate a large  
class. On this floor the professor will  
have a convenient office and private  
laboratory and there will also be a  
store and supply room.

The more advanced courses will be  
provided for on the second floor, where  
there will be large laboratories both for  
Quantitative and Qualitative Analysis,  
and also a smaller research laboratory,  
balance rooms, and a hydrogen sulphide  
room.

In the basement rooms will be pro-  
vided for milk and water analysis and  
for combustion and assay work. Here  
will be the large store room, with  
special entrance from the outside, and  
a protected room for explosives.

The building will be planned so that  
eventually it may all be used for  
chemistry, but for the present the  
department of Home Economics, whose  
work is overcrowding its quarters in the  
Warner Science hall, will be accom-  
modated on the first floor. There will  
be a commodious laboratory, a room for

(Continued on page 5.)

### TEACHERS IN SESSION.

Large Attendance at Opening of  
10th Annual Meeting.

The 10th annual meeting of the Ad-  
dison County Teachers' and Patrons'  
association and Teachers' Institute  
opened in the town hall here Thursday  
forenoon under the direction of the  
State Superintendent, Mason S. Stone.  
The meeting was opened with prayer  
by Rev. A. A. Lancaster, pastor of the  
Congregational church of this village.  
The address of welcome was delivered  
by Judge John E. Weeks, a member of  
the prudential committee of the local  
high school. The response was de-  
livered by President A. W. Eddy of  
this village, his subject was "The Call  
to Teachers." During the period of  
registration which took place during  
the forenoon, music was furnished by  
Mrs. F. L. Shackett, instructor of  
music in the local schools, and Max  
Green of Monkton. Vocal music was  
also furnished during the day's session  
by the children of the local schools. The  
first speaker to follow the address given  
by President Eddy was Superintendent  
William C. McGinnis of Troy, N. Y.,  
who spoke on "Primary Reading, Learn-  
ing to Read." At the afternoon session  
Charles H. Willey addressed the meet-  
ing on "Intermediate Reading, Reading  
to Learn." He was followed by Mrs.  
Maude S. Wade, who spoke on "Elimi-  
nation of Reading Classes by Combining  
Grades." Prof. Frank W. Cady of  
Middlebury college addressed the con-  
vention on "Dramatizing as an Aid to  
Reading." The last speaker of the  
afternoon session was James C. Walker,  
who spoke on "The Value of Eleme-  
ntary Physiology, Geography and History  
as a Reading Exercise." During the  
evening the entire body of educators  
and their friends were entertained at  
the town hall by the students of the  
Middlebury college, who presented the  
play, "She Stoops to Conquer," under  
the direction of Miss Caroline Craw-  
ford. The second session of the in-  
stitute will take place today (Friday).  
About 200 teachers registered during  
the day.

### Forward Movement Meeting.

A "Vermont" meeting, under the  
auspices of the State department of  
education, was held in the town hall  
Wednesday afternoon, with a good at-  
tendance. Dr. E. H. Martin, chairman  
of the local school board presided. The  
speakers were Mason S. Stone of Mont-  
pelier, State superintendent of educa-  
tion; Walter H. Crockett of Montpelier,  
editor of the Montpelier Journal, and  
Dr. Albert E. Roberts of New York,  
the well-known student of rural life.  
Dr. Roberts discussed the conditions of  
life in the country and the improvement  
of those conditions.

### Meeting Ethan Allen Chapter.

The annual meeting of Ethan Allen  
chapter, D. A. R., was held at the  
home of Mrs. J. H. Stewart May 10th.  
Reports of officers and special commit-  
tees were received. The officers elected  
for the ensuing year were: Regent,  
Mrs. Brewster; secretary, Mrs. Weeks;  
treasurer, Mrs. H. M. Seeley; advisory  
board, Mrs. Corkran and Mrs. Boyce.  
The program committee reported the  
subject for the year, "Our Neighbor,  
Mexico." After the reading of an in-  
structive paper by President Brainerd  
on "Early History of Middlebury" the  
hostess served dainty refreshments.

### Contract Awarded.

D. T. & A. G. Perry have been  
awarded the contract for the building  
of 4000 yards of permanent roadway in  
this village. The roadway to be built  
is on Main and Court streets and is to  
be macadam with Barber asphalt  
binders. It is the intention to begin  
operations on this work very soon.

## DELICIOUS SODAS

You're sure to like the soda water drawn from our fountain be-  
cause we take special pains to have it pure and wholesome. Every  
beverage is as nice as we can make it. We serve a great variety  
of thirst-quenching, cooling drinks made from the juice of lus-  
cious fruits, that are most healthful. If you prefer rich, creamy  
drinks those we serve will delight your palate.
